

WALEED KHATTAB

Software engineer & solution Architect

Saudi Arabia / Riyadh • +966581322413 • wa.ez1995@gmail.com

SUMMARY

Senior Software Engineer & Solution Architect Strategic technical leader with over 6 years of experience architecting and delivering high-availability, cloud-native systems for 100K+ daily active users. Expert in modernizing legacy monoliths into scalable microservices using Node.js (NestJS), .NET Core, and Kubernetes. Proven track record of bridging the gap between technical execution and business growth, leveraging PMP methodologies to streamline delivery lifecycles and mentor high-performing engineering teams.

WORK EXPERIENCE

UXBERT LABS / WEBOOK

Aug 2024 - Current

Senior solution Engineer / Backend - DevOps

- Architected and scaled a high-traffic platform to support 100K+ daily active users using NestJS, WebSockets, and a hybrid Microservices/Modular Monolith approach.
- Spearheaded DevOps transformation by implementing Zero-trust security and container orchestration (Docker/Kubernetes) across AWS and GCP environments.
- Accelerated business growth by delivering technical presentations that directly contributed to securing new strategic partnerships.
- Optimized system reliability by designing rigorous quality control frameworks and BullMQ-based messaging systems for asynchronous task processing.

AQWAS / STC PROJECT

Senior Backend / DevOps Engineer

AUG 2022 - AUG 2024

- Orchestrated end-to-end delivery of complex software solutions for major enterprise clients, ensuring alignment between technical output and stakeholder business goals.
- Reduced deployment friction by leading a cross-team DevOps initiative that automated delivery workflows and enhanced collaboration transparency.
- Increased system uptime through the implementation of proactive monitoring and rapid-response code enhancements to resolve performance bottlenecks.
- Served as Technical Consultant, identifying market trends to propose and implement high-impact technical opportunities for the STC project.

AL-JAZRI APP

Backend and software engineer

FEB 2021 - JUL 2022

- Pioneered a system-wide redesign, successfully migrating a legacy monolithic architecture into a multi-vendor SaaS platform.
- Built robust CI/CD pipelines using Docker, Kubernetes, and Kong API Gateway, reducing manual deployment overhead.
- Engineered high-performance data layers utilizing MongoDB, Redis, and ElasticSearch (APM) to ensure sub-second query latency.

PTWAY

software engineer & Tech co-founder

Jan 2019 - Jan 2021

- Worked across all phases of the software development lifecycle.
- Conducted requirements analysis, design, implementation, testing, and maintenance.
- Documented code and test cases.
- Evaluated operational feasibility and proposed technical solutions.
- Planned, architected, and built web applications from scratch.
- Designed UML artifacts (ER, Activity, Sequence, Use Case diagrams).
- Managed development using Jira, Notion, Git, and Airtable.
- Worked within Agile methodologies.
- Built full-stack JavaScript applications using Node.js, React, MongoDB, and Express.js.

TECHNICAL SKILLS

- **Architectures:** Microservices, Event-Driven Design, Modular Monolith, Serverless (AWS Lambda).
- **Backend:** Node.js (NestJS, Express), .NET Core, Python, Spring Boot.
- **Cloud & DevOps:** AWS (ECS, S3), GCP, Kubernetes, Terraform, Ansible, GitHub Actions, Jenkins.
- **Infrastructure:** Kong API Gateway, NGINX, OAuth2/OIDC, Keycloak (IAM), Zero-trust.
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch.
- **Project Management:** Agile/Scrum, Jira, Technical Governance

KEY COMPETENCIES / SKILLS

- Enterprise System Architecture & Microservices Design
 - Cloud-Native Architecture (AWS, GCP)
 - Backend Platform Engineering & API Design
 - DevOps, CI/CD & Infrastructure Automation
 - Identity & Access Management (OAuth2, SSO, Keycloak)
 - API Gateway & System Integration (Kong, NGINX)
 - Data Architecture, Security & Performance Optimization
 - Event-Driven & Distributed Systems
 - Technical Leadership, Mentorship & Architecture Governance
-

EDUCATION & CERTIFICATIONS

Bachelor of Science in Software Engineering | Applied Science
University, Amman

2014 - 2018

AWS Certified Solutions Architect – Associate
